

Medication Policy Information

The following policies ensures that every camper has the best opportunity to be in a safe environment. These policies are required for all campers who wish to attend Camp Daniel programs, otherwise they will not be permitted to check-in and will be send home.

Camper Medication Policy

- All regularly scheduled medications, including over-the-counter medications and vitamins/supplements will be reviewed by the nurse at check-in.
- Only send enough medication for the duration of the program.
- Adjust camper's medication schedule to match camp's schedule. (8am/12pm/5pm/8pm)
- Provide any specialty supplies necessary for the proper administration of medicine. Ex: syringes, test strips, tubing, droppers.

For applicant with 1 or 2 medications/vitamins administered per day:

- Must be sent to camp in the original container or pre-packaged by pharmacy with accurate, unaltered pharmacy Rx label

For applicant with 3 or more medications/vitamins administered per day:

- **MUST be pre-packaged by pharmacy in a multi-dose system**, where each med time for each day has one container/compartiment for all medications to be administered at that time.
- **Only exceptions are for liquids, drops, powders and lotions.** Although these prescribed medications do no need to be bubble packed, they must have an Accurate Rx Label from the pharmacy. **Birth control pills** that are pre-package may stay in the original packaging and must include a prescription label.
- Request this at the pharmacy as soon as possible and ask for **bubble-packed, pouch-packed, or other pre-packaged forms** for their program at camp.
- Most independent or local pharmacies will be able to do so for a small fee.

List of Pharmacies

This list of pharmacies who pre-package medications in a multi-dose system.

Streu's Pharmacy
528 N. Monroe Ave
Green Bay, WI 54301

920-423-3438

Glander Prescriptions+
3529 Superior Ave
Sheboygan, WI 53081
920-459-2755

Common Problems

The number one reason campers are sent home on first day of camp is because the medications were not packaged according to the Camper Medication Policy. The most common issue is when applicants have more than 3 medications/vitamins and are not pre-packaged by a pharmacy. The second common issue is that the packaging does not have the prescription label printed by the pharmacy.
